

City Adopts Balanced Multi-Year Budgets

The City Council adopted the City's first multi-year budget this past June, covering the financial years of 2014-2015 and 2015-2016. The multi-year budget reinforces the City's commitment to long-term fiscal health by looking beyond a one-year time horizon. The budgets for both fiscal years are balanced and will continue to build the City's "rainy day" reserve accounts, as the City's finances gradually recover from the effects of the Great Recession. The budget included no new taxes or major service fee increases.

The City's total General Fund revenues for the upcoming budget are estimated at \$19.1 million. General Fund revenues

are used to support services such as the police department, public works, road repairs, street lights, parks, recreation, and the library. Over 71% of the City's total General Fund revenues are generated from sales taxes on items purchased in Signal Hill. The budget forecasts annual sales tax revenues of \$12.3 million. Property tax revenues are estimated at \$609,000, since Signal Hill is a "no-low" property tax City.

Signal Hill's other major revenue sources include the oil production tax, which is forecast at \$1.2 million, and permits and

Chipotle, Sprint, Starbucks and Bank of America

Construction is nearing completion at the Gateway Center, just south of the 405 Freeway at Atlantic Avenue. The community will be welcoming

a new Chipotle restaurant, Sprint retail and service center, a free-standing Bank of America kiosk with two ATMs, and a Starbucks with indoor and outdoor dining areas and a 24-hour drive-thru. New trees and shrubs will frame the area along with the

mature pepper tree kept safe throughout the process. The tree will be pruned and shaped to allow for drive-thru vehicle access. The contemporary

building features a cultured stone veneer on pilaster bases, tower elements, and outdoor dining/seating areas with planters, a trellis, and umbrellas which will provide a beautiful setting to eat, shop, do your banking, and enjoy the view. ■

Stormwater – What is it?

You may have heard the terms "stormwater" or "urban runoff," and wondered how it affects you and why you should care. After all rain is good, right? Well, yes, rain is always good in southern California.

California, but it's what the water picks up on its way to the ocean that's a cause for concern. Stormwater can pick up debris, chemicals, dirt, and other pollutants as it flows into our storm drains. Water runoff from lawn sprinklers mobilizes these same pollutants during southern California's dry periods.

Like in the movie *Finding Nemo*, here in So Cal, all drains lead to the ocean. Anything that enters the storm drain is discharged *untreated* into waterbodies we use for water sports, fishing, and providing our drinking water. Stormwater runoff is the leading cause of water pollution in our region, prompting beach closures due to trash, debris, and harmful levels of bacteria and other pollutants.

What are the most common pollutants?

Runoff, whether from rain or lawn sprinkler water spilling down the gutter, is tainted by a host of contaminants from many different places including bacteria from pet waste not picked up, copper from auto brake pads, zinc from tire wear, automotive fluids that leak onto the pavement, and pesticides and fertilizers that flow from lawns and gardens.

What can I do to help?

Don't deposit trash or litter on city streets. Don't dispose of motor oil or antifreeze into gutters. Adjust your sprinklers so they don't overspray onto streets and sidewalks. Use lawn and garden pesticides and fertilizers sparingly so little to none washes away. Don't sweep yard waste in the street to clog storm-drains; compost or mulch it for your garden. Washing your car in the street can send detergents and other contaminants through the stormwater system. If you can, wash your car on your lawn and use biodegradable detergents. Repair automotive leaks so oil and other fluids don't fall on the streets and wash into our stormdrains. Pick up pet waste and dispose of it properly.

Let's keep our waterways healthy. For more information on this topic visit <http://water.epa.gov/polwaste/npdes/stormwater/>. ■

Award Corner

We all appreciate beautiful neighborhoods, attractive businesses, and those who care for our planet's precious resources. The City of Signal Hill has two recognition programs and we'd like to give a round of applause to a couple of award winners in our community.

The first of the City's programs is the **Sustainability Award** presented by the Sustainable City Committee (SCC) to recognize those who employ sustainable practices and have a positive environmental mentality. Recently, Mayor Wilson presented the award to the Promontory Crest Homeowners Association for improvements to their common areas, irrigation system, and lighting fixtures. These improvements led to decreased costs for water and electricity by approximately 40% overall. Meetings of the SCC are open to the public, and everyone is welcome to attend.

The **Beautification Award** was put in place to commend those who make improvements to their property, including exterior modifications, landscaping, and enhancing the neighborhood. Award winners are recognized at a meeting of the Planning Commission. The Commission's most recent award was presented to Signal Hill Petroleum for landscape improvements to their property on Willow Street east of Walnut Avenue. The improvements include new perimeter fencing, planting more than 500 plants on all exterior sides, and installation of an automatic irrigation system. Anyone with a Signal Hill residence or business can be nominated for the Beautification Award. Visit the City's website, select Departments, and the Community Development tab, and you'll see the Beautification Award option on the left.

Congratulations, Promontory Crest and Signal Hill Petroleum. We thank you for your contributions to our community! Again, we invite you to attend both the SCC and Planning Commission meetings, and consider nominating a home or business for these awards. We'd be delighted to hear from those who live in and enjoy our city so much. ■

Got Parking? Remember When ...

Remember that feeling you had when you got your first car? You washed it and waxed it, and kept it in the garage. Now the garage has been taken over and it's time to clean it out. So how about having a garage sale? Or, share a storage unit with a friend? Maybe make some charitable contributions. Just think how great it will feel to park your car in the garage again, and at the same time do your part for your neighborhood to free up on-street parking spaces. See our "Got Parking" flyer on our website for ideas – www.cityofsignalhill.org; select Departments, Community Development, Neighborhood Enhancement. ■

City Adopts Balanced Multi-Year Budgets

Continued from page 1

fees which are estimated at \$1.1 million in revenues. The Police Department's annual budget is \$8,427,400, while the Public Works budget is \$4,439,785. No new full-time employees were added to the budget, which will remain at 110 employees. However, the City Council approved a part-time emergency coordinator in the Police Department. The coordinator will assist in developing neighborhood preparedness plans and improving the City's emergency response capabilities.

The City's two-year capital improvement program totals \$17,383,406, with \$8,543,000 devoted to street improvement projects in the next two years. The Council authorized overdue maintenance projects, such as the repainting of City Hall and repairing steps and walkways. The City will also purchase one Community Services van this fiscal year,

and another Community Services van and three patrol cars in the second fiscal year.

The impetus for the two-year budget came from a recommendation from the Los Angeles County Civil Grand Jury in 2011. The Civil Grand Jury reviewed the financial practices of all charter cities and recommended that cities adopt multi-year budgets as part of "best practices." The Civil Grand Jury noted that multi-year budgets can ensure better planning for the delivery of basic services before funding projects of lower priority.

The Civil Grand Jury also commended Signal Hill for its prudent budget reserves. The budget projects our General Fund reserves at \$6,016,379 and the Economic Uncertainties Reserve Fund at \$5,077,159, for a total of 61% of the budgeted expenditures. The Civil Grand Jury reported that a number of Los Angeles County

cities carry less than 20% of budgeted expenditures in their reserve account and many do not have "rainy day" reserves. Signal Hill established a budget policy of maintaining a minimum reserve rate of 50% to anticipate economic downturns or the loss of a major sales tax producer. Signal Hill's reserve policy was prudent, since during the depth of the Great Recession, Signal Hill's sales tax revenues plunged by 28% in one year alone.

Despite the multi-year balanced budgets, there are budget uncertainties on the horizon that the City needs to plan for. Future budget challenges include the anticipated increases in the retirement rates set by CalPERS, the City's retirement fund. CalPERS notified all of its local agencies that they will be raising contribution rates over a five-year period, beginning July 1, 2016. In order to assist in dealing with the proposed rate increases, the City established a PERS reserve fund and continues to build this reserve fund. Additionally, City employees are required to contribute into their retirement fund. As part of the multi-year budget, the City Council requested a public workshop to study potential water rates increases. Signal Hill's water rates have not been increased in four years, while the City's costs to purchase replenishment water have grown by 80% since 2009. Additional information and copies of the City's budget can be found on the City's website at www.cityofsignalhill.org. Information can also be obtained by contacting the City Clerk's office at 562-989-7305. ■

90th Anniversary Celebration

We hope you have enjoyed the various events during the past several months in celebration of the City's 90th Anniversary. As these events come to a close, we would like to invite you to attend the Annual Tree Lighting on Wednesday, December 3, at 5:30 p.m., at Discovery Well

Park. In recognition of the 90th Anniversary, the theme for this event is an "Old Fashioned Tree Lighting." Visit with Santa and enjoy classic carolers while we light the City's holiday tree. Inclement weather will cancel the event.

City Clerk and City Treasurer Retirements and Appointments

The City would like to congratulate City Clerk Kathleen Pacheco on her recent retirement. Kathee served from April 1994 to June 2014, the City's longest tenured city clerk having been elected for five continuous, uninterrupted terms of office. The city clerk is the local official for the City who administers democratic processes such as elections, access to City records, and all legislative actions ensuring transparency to the public.

Likewise, in July, City Treasurer Emerson Fersch resigned his position as he relocated out of the City. Emerson served from March 2003 to July 2014. Emerson's contributions to the City include the development and implementation the City's investment policy and management of the City's investment portfolio which was \$35.3 million in March 2003, to its present amount of \$47.1 million. Emerson assisted the administration and finance departments in developing the City's annual budget plan, capital improvement plan, long-range plan, the monitoring of surplus funds, management of all banking relations and activity, and receipting of all revenue activity.

The City wishes Kathee and Emerson the best in retirement from public service.

On July 29, the City Council appointed City residents Robert Copeland as City Clerk, and Larry Blunden as City Treasurer, respectively, to fill these unexpired terms. Robert and Larry will serve as the appointed incumbents to these offices until the next General Municipal Election which will be held on Tuesday, March 3, 2015. The city clerk and city treasurer receive a stipend of \$300.00 per month for their activities. ■

Signal Hill Police Department Open House

The Signal Hill Police Department held its 1st Annual Open House on Saturday, May 10, between 10:00 a.m. and 3:00 p.m.

This free event was open to the public and provided the opportunity to walk through our facility where informational booths were staffed by our Ham Radio Operators, Police Volunteers, and Police Officers. Tours were conducted throughout the station with a Volunteer, Cadet, or Officer escorting the public through the various departments, which included Records, Dispatch, Detective Bureau, Briefing Room, Emergency Operations Center, and the Jail facility. Free hot dogs and beverages were served throughout the day.

Please check the City website next year for information regarding the 2015 open house, which will once again be scheduled during the month of May. We look forward to seeing you there!

The Drought Continues

On January 17, 2014, a state of emergency was declared to exist due to the severe California drought. These extreme drought conditions persist throughout the state due to a lack of rain and snowfall over three straight years. In fact, this year's drought is on track to be one of the worst in the state's recorded history. It is threatening the water supplies of cities and towns; causing major economic harm to farms; and endangering wildlife. It has left the state's reservoirs at alarmingly low levels.

The hot weather is here and this is when the City incurs its peak water usage. Managing water usage wisely now counts the most. On May 20, 2014 the Signal Hill City Council declared that a Level 1 Water Supply Shortage exists and that a consumer demand reduction of 10% is necessary to ensure sufficient supplies will be available to meet anticipated water demands. The following residential water conservation requirements and prohibitions are in effect within the City of Signal Hill to help achieve water savings.

1. Watering of lawns and landscaped areas restricted to three days a week – Monday, Thursday and Saturday.
2. The approved watering schedule for lawns and landscaped areas is before 9:00 a.m. and after 4:00 p.m. Watering during the hottest part of the day causes unnecessary water loss due to evaporation.
3. Water duration on automatic sprinkler controls is limited to 7 minutes per water station.
4. Watering or irrigating of lawns and landscaped areas that allow water flow or runoff to an adjoining area is strictly prohibited.
5. Washing down driveways and sidewalks is prohibited.
6. Operating a water fountain or other decorative water feature that does not use recirculated water is prohibited.
7. Using water to wash a vehicle is only permitted with a hand-held bucket or a hand-held hose equipped with a self-closing water shutoff nozzle.
8. An obligation to fix leaks, breaks, or malfunctions within 72 hours. Eliminating leaks right away will not only save precious water, it will save money.

If the drought continues and the City does not achieve sufficient water savings, a Level 2 Water Supply Shortage may be necessary. This would necessitate more stringent regulations to achieve a 20% reduction in water usage and limiting watering of lawns to two days per week, and limits on filling or refilling swimming pools and spas.

Watch for a Special Edition of City Views coming in October to provide more information on the drought and water saving measures.
